Proven record of technical innovation and execution. Focused on user engagement through continuous improvement and the use of experimentation and product analytics. Highly collaborative and people-first leader.

EXPERIENCE

FOX Sports – Director of Product Management

Nov 2022 – Present

- Product lead for FOXSports.com and Super 6 (Interactive) teams. ▪ Managed the Product Managers responsible for feature development and SEO content strategy. ▪ Worked with Business development, PMO, Marketing, Design, Technology, and QA teams to continuously deliver value in the highly competitive sports media space. ▪ Collaborated on digital strategy and evaluated priorities with the executive leadership team.
- Mentored product managers to focus on team goals, achieve business KPIs and adjust to new priorities.
- Worked with FOX DevOps team to launch [Fox Deployed](#) program, an AI-assisted direct deployment framework for rapid prototyping of both consumer-facing and internal applications (via Replit).

GameChanger – Director of Product Management

May 2021 – Nov 2022

- Product Lead for Acquisition/Growth team that was responsible for acquiring and onboarding new Coaches and League Admins onto the platform and converting them into high affinity content-generating users. ▪ Drove the release of the new Organizations capability that was used in the administration of Leagues, Travel Team Organizations, and Tournaments. ▪ Released Head-to-Head scorekeeping feature that automated the duplication and synchronization of scoring data across the two participating teams. ▪ Responsible for roadmap and quarterly OKRs, collaborated with the Product teams on overall strategy.

Express Scripts (Cigna) – Agile Product Director

Aug 2020 – May 2021

- Managed a team of Business Product Owners that were responsible for the express-scripts.com customer portal. ▪ Responsible for self-service strategy and roadmap with a focus on enhancing patient capabilities, reducing customer care call volume (digital defection) and driving margin opportunities. ▪ Drove quarterly portfolio planning and prioritization ceremonies to maximize business value.

Travelers – eBusiness Director of Product (SAFe PM)

Apr 2018 – Aug 2020

- Responsible for the development of the MyTravelers.com self-service platform for both Personal Insurance and Business Insurance lines of business with both business and tech accountability. ▪ Managed two scrum teams each with six developers, a scrum master, and a business analyst. ▪ Participated in portfolio planning and prioritization to develop platform strategy and roadmap. ▪ Collaborated with Engineering, QA, Marketing, and Legal teams to drive product deliverables.

LEGO Systems Inc. – Sr. Digital Producer (SAFe PM)

Oct 2015 – Apr 2018

- Responsible for the ideation and execution of all digital products within the LEGO Superheroes, LEGO Batman Movie, and LEGO Star Wars franchises on LEGO.com, iOS, and Android. ▪ Led multiple external vendors as well as internal creative and development teams. ▪ Managed and prioritized product sprints (as well as product

backlog) for all development teams. ▪ Led the development of the LEGO Batman Movie iOS/Android apps with Warner Brothers. ▪ Collaborated with the LEGO Global Marketing team in Denmark to devise overall content strategy, roadmap and global activations in FY 2016 and FY 2017 for LEGO Digital Marketing team.

ESPN Inc. – Director of ESPN Consumer Technology Operations

Jan 2015 – Oct 2015

▪ Created and led a team of 10 developers that were responsible for day-to-day support of all digital properties built by ESPN Consumer Software Engineering (ESPN.com and ESPN App portfolios). ▪ Collaborated with teams across ESPN to identify, clarify, track, and resolve all user-facing issues and outages within products built by ESPN as well as partner products (ESPN affiliates). ▪ Coordinated resolution and then documented the root cause to prevent future occurrences.

ESPN Fantasy Games – Director of Product Management

Dec 2007 – Jan 2015

▪ Managed all phases of product development from concept, proof-of-concept, development, product launch, and maintenance. ▪ Responsible for overall product strategies and roadmaps. ▪ Drove business development (product sponsorship, sweepstakes/legal, marketing), development (concept to completion), quality assurance, and post-launch game operations. ▪ Collaborated with Design, Editorial, Engineering, QA, Marketing, Sales and Advertising teams to coordinate the launch of all Fantasy products on schedule and within budget. ▪ Utilized Adobe Analytics, Localytics, and comScore as well as A/B testing to drive product decisions and to shape the strategic direction of development efforts across the Fantasy portfolio.

ESPN Fantasy Games – Director of Product Development

Dec 2007 - Jan 2015

▪ Led a team of developers and designers responsible for multiple gaming engines including Bracket, Pick'em, Roster-based/Manager, Streak for the Cash, Rank'em, and Trivia engines. ▪ Helped contribute to a record \$41 million in digital sponsorship revenue for FY 2012. ▪ Worked closely with Sales and Marketing teams to create custom sponsorship opportunities. ▪ Led the development of Tournament Challenge iOS and Android apps from 2011 to 2014. ▪ Led the development of the Streak for the Cash app from 2008 to 2015 amassing 6.4 million users.
